

Summer Social Skills Groups

- For children ages 4 to 8
- Grouped by age and language level
- Small group size, led by a speech pathologist
- Developed by 2 speech pathologists with extensive training in language and pragmatics (social skills)
- Multi-modality approach utilized to engage children, improve comprehension and generalize skills targeted
- Groups incorporate, among other tools, Michelle Garcia Winner's "Social Thinking" curriculum
- Each session/group is not "cookie cutter" and are individualized as much as possible to address your child's strengths/needs

Skills targeted:

- Joint attention + Engagement
- Gaining attention
- Turn-taking
- Conversational skills
- Asking and answering questions
- Identifying + expressing emotions
- Making and keeping friends
- Being a Flexible Thinker

Social skills targeted through a combination of direct instruction and incidental learning.

Activities include:

- Circle Time/Meeting
- Role playing
- Snack time
- Sensory/Movement activities
- Arts and crafts
- Music
- Social Stories
- Games

Both structured and unstructured activities are included to facilitate spontaneous use of skills and carryover/maintenance.
